Iron Beam laser's speed could mute sirens, end most runs to bomb shelters

June 5, 2025 *jpost.com* reported: "Rafael Advanced Defense Systems' new family of lasers, which started to be rolled out last week and will continue to be presented to the public by the end of 2025, could eliminate the need for Israelis to run to bomb shelters during most aerial threats, the defense company revealed on Wednesday.

According to Rafael, a major advantage of its lasers – Iron Beam, Iron Beam M, and Lite Beam – is that they can shoot down enemy rockets and drones much earlier in the threat process, such that most of the time, no sirens or bomb shelters would be necessary.

This is because the light energy of the laser travels much faster than any interceptor in Israel's arsenal and would already potentially destroy the enemy aerial threat shortly after it launches, invariably while it is still in enemy territory.

Only in those rare cases where the laser system missed its target, and likely missed it multiple times – since there should be time for multiple shoot-down attempts – would a siren and running to bomb shelters be necessary..."

Chinese Nationals Charged with Smuggling 'Agroterrorism Weapon' into U.S.

June 4, 2025 *breitbart.com* reported: "Two Chinese nationals have been charged with conspiracy, fraud, and smuggling a deadly bio pathogen into the United States.

United States Attorney Jerome F. Gorgon, Jr. announced that 33-year-old Yunqing Jian and 34-year-old Zunyong Liu, both citizens of the People's Republic of China, were arrested on various conspiracy charges, which included smuggling 'a fungus called *Fusarium graminearum*, which scientific literature classifies as a potential agroterrorism weapon.' The Justice Department said in a press release:

The FBI arrested Jian in connection with allegations related to Jian's and Liu's smuggling into America a fungus called *Fusarium gramine arum*, which scientific literature classifies as a potential agroterrorism weapon. This noxious fungus causes 'head blight,' a disease of wheat, barley, maize, and rice, and is responsible for billions of dollars in economic losses worldwide each year. *Fusarium graminearum*'s toxins cause vomiting, liver damage, and reproductive defects in humans and livestock..."

Colorado attack suspect supported the Muslim Brotherhood

June 4, 2025 *israelnationalnews.com* reported: "Mohamed Sabry Soliman, the Egyptian national accused of carrying out a firebomb attack on a pro-Israel rally in Boulder, Colorado, had previously expressed support for the Muslim Brotherhood on his social media accounts. Soliman's Facebook profile, inactive for over a decade, featured posts praising former Egyptian President Mohamed Morsi and displaying symbols associated with the Brotherhood, such as the Rabaa salute.

Soliman, 45, allegedly targeted participants of the 'Run for Their Lives' march, a weekly event advocating for the release of Israeli hostages held by Hamas. During the attack, he reportedly used Molotov cocktails and a makeshift flamethrower, injuring 12 individuals, including an 88-year-old Holocaust survivor..."

Khamenei to Trump: 'Who are you to tell us we can't have a nuclear program?'

June 4, 2025 *israelnationalnews.com* reported: "Iranian Supreme Leader Ayatollah Ali Khamenei today (Wednesday) rejected American pressure and proposals to end its nuclear weapons program, calling such proposals a violation of the principle of Iranian independence.

'The leader of our revolution is a great man whose presence in the world is still tangible after thirty-odd years since his passing, and the impact of his revolution is clearly visible to people around the world,' Khamenei said at an event marking 36 years since the death of predecessor, the founder of the Islamic Republic, Ruhollah Khomeini.

'The sharp decline in America's position in the world is due to his presence, and hatred of Zionists is due to his revolution,' he claimed.

‘The Islamic Revolution of Iran surprised the Western world. They did not think that a single cleric, without equipment and financial resources, could lead a nation into battle,’ Khamenei added. ‘They did not believe that this revolution and this Imam would be able to sweep away the Americans and the Zionists, who had dominated everything in Iran for years, and would be able to expel them from the country.’

Addressing the negotiations with the US on Iran’s development of nuclear weapons, he stated that Iran rejects the latest proposal from the Trump Administration because it ‘contradicts our principle of power by one hundred percent.’

‘It goes against the slogan ‘we can’, which is an important principle in our country’s independence,’ he added.

Addressing US President Donald Trump, he asked, ‘Who are you to tell us whether we can have a nuclear program or not? We will not give up the ability to enrich uranium.’...”

Trump says Iran deal would not allow ‘any’ uranium enrichment

June 3, 2025 spacewar.com reported: “US President Donald Trump on Monday ruled out allowing Iran to enrich uranium under any nuclear deal between the foes — as Tehran defended what it said was its ‘peaceful’ pursuit of fuel for power generation.

Uranium enrichment has remained a key point of contention in five rounds of talks since April to ink a new accord to replace the deal with major powers that Trump abandoned during his first term in 2018.

‘Under our potential Agreement – WE WILL NOT ALLOW ANY ENRICHMENT OF URANIUM!’ Trump said on his Truth Social network after the Axios news outlet said Washington’s offer would let Tehran enrich some of the nuclear fuel.

Republican Trump also blamed predecessor Joe Biden for the impasse, saying the Democrat ‘should have stopped Iran a long time ago from ‘enriching.’

Axios said the latest proposal that Washington had sent Tehran on Saturday would allow limited low-level uranium enrichment on Iranian soil, for an amount of time that has yet to be determined. Iran has insisted that Iran has ‘nothing to hide’ on its nuclear program...”

Iran preparing for Israeli, US strikes, building up air defense systems

June 3, 2025 jpost.com reported: “Iran is strengthening its air defense systems amid preparations for the possibility of an American or Israeli attack on the country’s nuclear infrastructure should nuclear negotiations fail, the *Financial Times* reported on Sunday.

‘We are witnessing an impressive improvement in the capabilities and competence of the country’s air defense system,’ Iran’s Armed Forces Chief of Staff Mohammad Baqeri reportedly said in May, adding that Iran’s military has seen a ‘multi-fold increase in investments.’

‘The enemies of the Iranian nation should understand that any violation of our airspace will cause them significant harm,’ he added...”

Report: Suspect in Antisemitic Terror Attack in Boulder Is Illegal Alien Admitted Under Biden

June 2, 2025 Breitbart.com reported: “Department of Homeland Security (DHS) officials have revealed that the suspect behind the Park Street Mall attack in Boulder, Colorado, is an illegal alien who entered the United States under the Biden administration.

Fox News’s Bill Melugin revealed that ‘three senior’ DHS sources said Mohamed Sabry Soliman, 45, is ‘an Egyptian national in the U.S. illegally,’ and has overstayed his visa after entering the United States under the Biden administration.

Melugin added that he was ‘told’ Soliman ‘arrived at LAX on 8/27/22 on a B1/B2 nonimmigrant visa with an authorized stay through 2/26/23, but he overstayed & never left.’

‘I’m told on 9/29/22, he filed some sort of claim with USCIS, potentially an asylum claim, and on 3/29/23, USCIS under the Biden admin gave him work authorization, which expired on 3/28/25,’ Melugin added...”
